SUMMARY:

- Around 12+ years of experience as **Principal Software Engineer** covers analyzing client requirements, designing, and development.
- Extensive experience in developing microservices application using serverless components in cloud platforms like AWS and Azure.
- Developed Restful API(OpenApi 3.0) platform for Nissan partners and API monetization using Google Apigee & AWS resources.
- Hands-on experience in Java, Spring frameworks, Spring boot, JavaScript, Nodes.
- Knowledge in setting up Devops for cloud deployments using Jenkins & Bamboo.
- Hands-on experience in dockerize the applications and getting it deployed in Azure Kubernetes service(AKS) & Amazon Kubernetes service(Amazon EKS).
- Experience in developing cloud native even driven applications in AWS and Azure.
- Extensive knowledge in Distributed systems and defining architecture for the same.

EXPERIENCE SUMMARY:

Nissan Motor Corporation – Principal Software Engineer

- Define & Implement Data & Nissan partner integration platforms for connected mobility using cloud technologies like Java 8,AWS,NoSql & Apigee as api gateway.
- As a Technical architect for Nissan Customer experience (CE 2.0) team, define & implement Omni channel sales systems for Nissan like websites, social media integration, dealer business systems. etc.
- Implement API developer portal for Nissan trusted partners & defining API monetization strategy.

EY (Ernst & Young) (Feb 2015 – June 2019) – Associate Architect

- Developed Azure cloud based products for domains like Insurance, Tax and Cyber security.
- Developed a framework for OWASP security compliance.
- Extensively worked on Micro services using Spring platform and deployed the product in Azure cloud.

UST Global (Oct 2010 – Feb 2015) – Senior System Analyst

- Worked in USA for a credit bureau responsible for developing components for their B2C product.
- Worked on migrating legacy web applications from Glassfish server to IBM Webshpere.
- Defined and developed Devops for cloud code deployments

Pacific Controls Systems LLC, Dubai (Jan 2008 – Jan 2010) – Senior Engineer Applications

- Worked on control systems and IOT solutions.

Infovista Technology Solutions Pvt Ltd, Cochin (Nov 2006 – Dec 2007) – Programmer Analyst

.

- Worked as programmer Analyst

TECHNICAL SKILLS:

Programming Languages	Java 8, J2EE,GoLang,Javascript
AWS Services	AWS Lambda,AWS EC2,AWS Fargate,s3,SQS,SNS,AWS Data Glue,AWS Data pipeline, AWS EKS,AWS App flow,AWS WAF etc.
Azure Services	Azure APP services,AKS,Azure Functions,APIM
Spring framework	Spring boot, Spring Core, Spring MVC, Spring Data JPA, Spring Restful
Client side/JavaScript's	JavaScript, AJAX, JQuery,Angular
Database	Aurora,MongoDB,MS SQL Server, MYSQL 5,Oracle,DB2,BigSQL,neo4j,Redis
Devops tools	Jenkins,Maven,Jython, Cloud formation
JEE Containers & webservers	WebSphere 8.5,Glassfish,Sunone,IHS,Tomcat
Big Data stack	Apache Kafka,IBM Watson content analytics, BigSQL,Application Insights
Others	Google Apigee

EDUCATIONAL QUALIFICATION & CERTIFICATIONS:

- Bachelor of Engineering in Computer Science (Anna University, India) .
- EY Bronze badge on AI
- Certified scrum master from Scrum alliance.
