GitHub

SUMMARY:

- As a **Senior Software Engineer** covers analyzing products requirements, designing, and development of software products.
- Around **7 years** of hands-on experience in Java (JDK 17,11,8) versions, J2EE, Spring boot, Go Lang, JavaScript.
- Implemented **big data streaming** applications using Spark, Amazon EMR, Amazon Redshift,AWS Kinsesis,Glue etc.
- Extensive experience in developing micro services application using serverless components in cloud platforms like **AWS and Azure.**
- Developed Restful API (OpenApi 3.0) platform for Nissan partners and API monetization using Google Apigee & AWS resources.
- Knowledge in setting up Devops for cloud deployments using Jenkins & Bamboo.
- Hands-on experience in service orchestration using Azure Kubernetes service (AKS) & Amazon Elastic container service (Amazon ECS).
- Experience in developing cloud native even driven applications in AWS and Azure.

EXPERIENCE SUMMARY:

Nissan Motor Corporation – Senior Software Engineer

- Define & Implement Data & Nissan partner integration platforms for connected mobility using cloud technologies like Java 8, AWS, MongoDB & Apigee as api gateway.
- As a Developer for Nissan Customer experience (CE 2.0) team, define & implement Omni channel sales platforms for Nissan like websites, social media integration, dealer business systems. etc.
- Implement API developer portal for Nissan trusted partners & defining API monetization strategy.

Technology Stack:,

Java(JDK 15,16),J2EE, Spring boot, Spring Data stream, MongoDB, Redis, Cassandra, Spring workflow.AWS Aurora, Spring Micro services, Jenkins,Jmeter,Kubernetes,Apache Kafka, AWS services, Apigee, Go Lang.

EY (Ernst & Young) – Senior Engineer

- Developed Azure cloud based products for domains like Insurance, Tax and Cyber security.
- Developed a framework for OWASP security compliance.

- Extensively worked on Micro services using spring platform and deployed the product in Azure cloud.

Technology Stack:

Azure, Java(JDK 9,11), Spring boot, Spring Data stream, Oracle 11, Redis, Spring Micro services, Node Js, Angular Js,python 2.7, Kubernetes.

UST Global –System Analyst

- Worked in USA for a credit bureau responsible for developing components for their B2C product.
- Worked on migrating legacy web applications from Glassfish server to IBM WebSphere.
- Defined and developed Devops for cloud code deployments

Technology Stack:

Spring, Sun Glassfish,IBM websphere,Java,J2EE

TECHNICAL SKILLS:

Programming Languages	Java (until JDK 17 from JDK 1.5), Node JS, GoLang, Angular
AWS Services	AWS Lambda,AWS EC2,AWS Fargate,s3,SQS,SNS,AWS Data Glue,AWS Data pipeline, AWS ECS,AWS App flow,AWS WAF etc.
Azure Services	Azure APP services,AKS,Azure Functions,APIM
Framework	Spring boot, Spring Core, Spring MVC, Spring Data JPA, Spring Restful,EJB 3.0
Testing Tools	Junit,Selenium,Postman,Fiddler,Mockito ,Gauge
Database	Aurora,MongoDB,MS SQL Server, MYSQL 5,Oracle,DB2,BigSQL,neo4j ,Cassandra
Caching solutions	Redis, Elastic Search
Devops tools & Orchestration	Jenkins,Maven,Jython, Cloud formation,Kubernetes,Kafka,Step functions, Dockers,Github,bitbucket
JEE Containers & webservers	WebSphere 8.5,Jboss,Glassfish,Sunone,IHS,Tomcat

EDUCATIONAL QUALIFICATION & CERTIFICATIONS:

- Bachelor of Engineering in Computer Science (Anna University, India)
- Advanced Application Architecting in AWS from AWS learning.
- Bigdata Architecting in AWS from AWS learning.
- EY Bronze badge on AI
